We have been working on building a purebred Angus program from the most sought after genetics in North America. Through progressive flushing, we will have 60 Angus ET calves born in December, January and February. The donors and bulls pictured above are an example of the very best genetics available and we fully stand behind these genetics 100%! *There would be 60 calves to choose from that will be born in 2019 and the pick needs to be made by October 1, 2019. We will also supply one plane ticket for the individual coming to make the selection, along with the pickup at the airport and dropoff.*

We are very impressed by the job that Profit Maker has done in our program and when mated with the great 8543U influence on the bottom side, we are proud to offer one of the very best we have produced in 820F. Invest with confidence as she has the look and pedigree to be a front end female. Donor potential here in a flawless pedigree and beauty of a female.

8543U needs no introduction to the Simmental industry as she has generated more dollars than any other female within the breed. Her daughter by United, our 6114D donor has done a great job for us and has the same maternal strength as her dam to progress any program that utilizes them. 821F has the barrel, sweep to her lower rib, extension through the front end and overall completeness to be a true breeding asset.

The donor dam, 6115D is out of the great 8543U on the bottom side and the famous Lock N Load on the top which makes her a full sibling to the \$205,000 Bank Roll. 809F has the shape, power, muscle to produce bulls and the attractiveness through her front with extension, athleticism and smoothness to make competitive show heifers. She puts it all together and once again, Commissioner raises another feature.

\$62,000 high selling open at Friday Night Lights

RF/Rust Flirt 827F :: Full Sister to Lot 4
Supreme Champion at FarmFair Legends of the Fall

RF Certainly Flirtin 202Z
Grandam that has produced \$550,000 in progeny

808F puts it all together with phenotype and genotype as she is a true donor in the making. Phenotypically, 808F is attractive, stout, athletic, hairy, long made with a overall hard to beat presence. Genotypically, she is a full sib to the \$62,000 high selling open and we also have a full brother that is a lead bull in our Pen of 3 at the 2019 NWSS. Her sire was a high seller from Griswold and is a true breeding peice. Her dam is the \$44,000 404B donor that never misses and her grandam has now surpassed \$550,000 in progeny sales. Only our best sell and 808F is a true donor prospect.
