

RUST MOUNTAIN VIEW RANCH
MERCER, ND

RMMR

production sale

MONDAY OCT. 31, 2022
AT THE RANCH - 1PM CT

Welcome from Rust Mountain View

On behalf of all of us at Rust Mountain View Ranch we'd like to say thank you for your interest in our program and would also like to thank our past buyers. Without our great customer base none of this would be possible!

Over the past several years we have heard from our customers on how nice it has been to turn full brothers into their cow herds. They have commented that their calves have come off the cow with more consistent weights and eye appeal in their females. With consistency comes added value for the customer and that is what we are trying to do for our customer each and every year, ADD VALUE. We have poured our hearts, soul, and extensive financial resources into accumulating this donor herd and we are extremely proud of it!

We are so honored to say we are part of the cattle industry. Each year there are new challenges and opportunities which makes this industry so exciting and rewarding! There is nothing that is more rewarding than overcoming challenges and seeing

the end result of years of hard work come to fruition! We have truly enjoyed watching these heifers evolve into the genetic gems that we imagined and hoped they would be when we first planned the flush! As always it continues to be our utmost passion to bring the greatest cattle possible to our customer base with your needs in mind first and foremost! Buy with confidence at this year's sale because these heifers come from 11 plus years of embryo transfer and their mothers are the backbone of our program!

Like always if you have any questions about the catalog, or our new philosophies of an extensive ET program please don't hesitate to give us a call. We enjoy the conversations and look forward to them each and every year. If you're ever in the area we'd love to have a visit and show you around the ranch. The coffee's always on!

Thank you again for your interest in our program!

**1:00pm - RUST MOUNTAIN VIEW RANCH
PRODUCTION SALE**

Welcome from Bohrson

The Rust family welcomes you to their annual Rust Mountain View Ranch Production Sale where they offer their very best genetics and surround it with first class hospitality. This family program is backed by some of the biggest hearted and driven people in the industry and go the extra mile to put on an exciting event. You are not only investing in some of the most exciting genetics in the business but you are working with some of the best people behind them who always put their customers first.

The Simmental division is always backed by the best cows in the industry and this year is no exception. Countess, Flirt, 8543U, 5870C, Scream are all big time cow families that nearly represent the entire Simmental section and you can invest with confidence as they are marketable for generations to come. They are mainly ET females on offer and sired by the hottest and most exciting bulls in the breed, this is an opportunity to tie into with confidence.

The 2022 edition of the Angus division in the Rust Mountain View Ranch Production Sale is loaded with depth of quality throughout. They have been acquiring some of the very best donors in the world and this is your opportunity to acquire direct daughters of them to build your own cow family around. Beauty, Madame Pride, Rose & C815 are represented and you'd have to look long and hard to find a grouping of cow families quite as strong and exciting.

We encourage you to join us in Mercer, ND for this exciting event with stacked pedigree, high quality cattle and backed by a family that is salt of the earth and terrific to work with. If you can't join us on sale day, feel free to reach out to any of the Rust family or the sales staff on hand as there are great opportunities throughout. We look forward to visiting with you further on sale day as we host this outstanding sale for top notch people.

Best regards,

Scott Bohrson

Welcome from Innovation

Welcome to Mercer, North Dakota, home of Rust Mountain View Ranch; one of the premier multi-breed seedstock providers in the country. It is always a pleasure to work with the Rust family and their talented crew in the preparation for their annual production sales. After a tremendous summer with much welcomed rainfall through the Dakotas, cattle prices continue to surge and the demand for quality seedstock has never been better! What a tremendous time it is to be in the cattle business sector of the agriculture industry!

Between the covers of this catalog you will identify several ET flushmate sisters that are backed by some of the most prolific females in the beef business. A rock solid foundation of elite maternal prowess supports each and every female in this year's offering. Cow families such as the legendary Miss Werning KP 8543U, RF Certainly Flirtin 202Z, Lawsons Chloe C815, Soo Line Rose 1019, S A V Madame Pride 1282, and S A V Emblynette 4223 are heavily represented within this offering. These are true power cows that are among the most astute matrons within their respective breed.

The Rust family is fully committed to providing a product that will positively impact their customer's bottomline. The fundamentals will always remain first, and the cattle that call Rust Mountain View Ranch home are required to work for a living if they plan on an extended tenure. The cattle that carry the RMVR prefix have earned this privilege based on their quality and functionality. The same strict culling tactics and selection pressure has been emphasized as the Rust family turns the page to the next chapter of their program.

We would like to personally invite you to join us on Monday, October 31, 2022 in Mercer, North Dakota for the annual female sale. If you have questions about this offering, please do not hesitate to reach out to any of the Rust Family or sale staff prior to the sale to discuss the offering.

Enjoy the cattle,

Graham Blagg

DIRECTIONS

836 7th Ave NW, Mercer ND 58559

From Mercer, ND:

- Go 3 miles north on only paved road heading north north which is Highway #33.
- On east side of the road you will see a sign that says Rust Mountain View Ranch turn east there on gravel road and go 1.5 miles to a T in road.
- There you will see a house a quarter mile to the north and that is the yard.
- Visit the website 'Contact Us' Page for a Google Map of the location

A gorgeous pair of full sisters sired by ES Right Time FA110-4 and mothered our selection from Hartmans 2020 sale, Rosebud 17H. Rosebud is a moderate framed, big ribbed female with superior foot quality and stunning eye appeal. The length, extension and power passed on by Right Time has complimented the beautiful skulled Rosebud 17H female here in lots 1 and 2 and we think they have a bright future ahead of them. Here's your opportunity at a pair of flushmates that are outcross to mainstream genetics that have a lifetime of production ahead of them.

A really exciting genetic package in this phenotypically stunning female. Sired by the first ever Grand Champion Simmental bull from the Cattleman's Congress, the \$530,000 SO Remydy 7F. Remydy's accolades go far past the success in the show ring as his first crop of females to sell were highlighted by a \$50,000 daughter and two \$40,000 daughters and many more north of the \$10,000 range. Lot 3 is mothered by a new generation of Flirts who was a \$30,000 feature from Rancier at the 2020 Friday Night Lights sale. We feel the power in the pedigree of this female is evident when you see the names like Cream Soda, Flirt and Sugar right there in her pedigree! This female is a unique blend of attractive phenotype with a solid set of numbers with the ultimate predictability of maternal greatness.

Lots 4-5: We are sure proud of the job Prime Time has done not only as his home at Double Bar D but also here and everywhere else he was utilized. Prime Time progeny are consistently soft made with extra hair and look while remaining sound structured. We feel the Prime Time x Proclamation mating on these two ET sisters is a balanced combination of cattle that offer both calving ease and performance wrapped into one great package. Lots 4 and 5 are a great representation of our breeding program as some of our most influential cow families are represented with the Flirts and Angel 5870C. If you like Cattle that are attractive with performance and shape bred in, then we think you will really appreciate what they have to offer.

11.8	0.5	75.7	119.6	4.8	21.7	59.5	26.8	-0.07	120.9	73.2

To say we are excited about the future of the 970G female would be a great understatement. 970G was a past \$45,000 feature female out of FNL the fall before her full brother RF Super Charged brought \$130,000 in the spring of 2020. Fast forward to the summer of 2021 where a full sister was a record setting \$110,000 (2/3 interest) purchase out of the Jenna Flirt event. This merely scratches the surface of the rich and deep heritage of the 970G female and her cow family as they are some of the most recognized in the world. Combining the exciting Prime Time sire with 970G has proven a home run in this powerfully constructed, elegantly designed female selling as lot 6.

An absolute sweetheart of a halfblood female here and one that will make you appreciate what the hybrid vigour from these two great breeds offers. When we decided to breed the powerful 818T Angus female to a Simmental bull it didn't take us long to decide to breed her to the legendary Remington Lock n Load 54U who is best known as the sire of the \$240,000 (half interest) W/C Loaded Up 119Y bull that is in turn responsible for some of the hottest bulls and females in the breed today. Some of the most appealing cows you will find anywhere are direct half bloods and we feel this female has a lot of cow power potential.

When we thought about combining the Simmental industry leading Flirt cow family with the legendary Angus cow family, the Emblynettes, lot 13 was exactly what we had in mind. When you analyze this female you appreciate her angular design, her strong maternal look and her undeniable shape. Our Trustee progeny in production are absolutely beautiful, hard working mother cows and have complimented our program extremely well. We feel this combination of some of the industry greats represented across two different breeds is very special with the likes of Charlo, President, Bismark, Emblynette, Trustee, Flirt and Captain Morgan all up in this females pedigree as some of the most recognizable names within each respected breed.

Lots 17-18: One of our favourite red donors to ever call Mercer home was apart of the rookie calf crop for WFL Westcott 24C up in Canada the fall of 2017. 740E was a \$55,000 acquisition that we needed to own as we felt you can never have enough 202Z influence in your herd, being a direct daughter. The Westcott cattle have been the type of cattle that thrive in any environment and will improve foot quality and feed conversion. The mating here to All American has been a nice compliment in these sisters who are soft made, easy doing future brood cows that are very balanced and complete.

This is a really cool breeding combination when you factor in the rugged, loose hided style that Westcott has bred on and the sharp, extended look that Bet on Red offers. 740E is a beautiful uddered female that is robust made and the type to build a cow family around. We feel this mating her to Bet on Red offers a unique blend of many positive attributes resulting in this well balanced female.

We found lot 20's dam at Friday Night Lights in 2018 and knew we needed to own her as she is a full sister to our production powerhouse, 404B. The predictability in the Flirt cow family is as potent as any we have seen before and you can continually count on the Flirts raising the right kind. Anytime you have an opportunity to tie into a Flirt female, just do it.

This is a female that's absolute rich with beautiful cows in her pedigree. First of all she's a Flirt! Her sire was a calving ease specialist we acquired from Crossroad Farms because of his phenotype and his beautiful two year old dam that had raised him. Diva 425D is a picture perfect uddered female that was shown extremely successfully for a couple years in Canada. We feel this bred female is destined to be an absolute front pasture type female!

 PENDING - MAR 8, 2022

Sired by our 2022 High Selling bull, Forged of Fire that went to KT Ranches, 2034K is a special breeding piece out of the great Chloe C815. The cow families in lot 39's pedigree are truly overwhelming, Rose, Annie K, Beauty, Chloe, they are all represented and are proven production matrons that have stood the test of time. Hairy, alert and well constructed females like 2034K will always turn into the type of cows you can count on to raise the great ones year after year and with the maternal lineage shown here, the guess work is taken out for you.

A double bred Beauty never hurt anyone! The Renovation females are big time producers with ideal teat she and placement with impeccable udder quality. They truly make you want to have 100 of them and lot 40's dam is no exception. 2504K's \$72,000 grand dam, Brooking Beauty 6066 was an ideal beast whose legacy will truly live on through her daughters and grand daughters as they all possess her stunning profile and maternal look.

Lot 41-42: Another pair of 907G daughters and they are rips! The Beauty's absolutely never go out of style and lots 41 & 42 are evident why. If you love investing heavily into cow families like we do, then we highly recommend getting yourself a beauty. Both lots 41 & 42 has extra style n substance while remaining sharp in their lines. We really like this offering of open Angus heifers.

Lots 43-44: KA Barbaramere 4201 is one of the most decorated donors in the business and built a great cow family around the respected Kenny Angus program. This never-miss donor is a stout, big hipped, attractive fronted, maternally-driven breeding piece that is the kind to build around. These Conversation and Cash daughters are prime examples of the breeding capabilities of 4201 and are a great representation of the type of cattle we like to produce at RMVR as well. Invest with confidence, these are the kind to tie into and have big time ROI.

Lots 45-46: Out of our new donor from the Schaff program, 9832, who was a \$42,500 acquisition and one of the top selling President daughters that day. Lot's 45 and 46 are sired by Conley Verified, a bull we really admired when we first seen him at the inaugural Cattleman's congress. The Sandys and the Prides line up here in these pedigree's and when you lay eyes on these extended, sound made females, you will come to appreciate them as much as we do. These females would compete very hard in a show ring setting and we know they will make big time production females moving forward.

As hard as it is to see these 1019 females leave, its always exciting to watch them go out and work for their new homes! The Rose cow family is as popular as any and its obvious why when they look like lot 47. Extra depth, extra width extra good, we can't say enough about how potent 1019 is in terms of how she passes on her traits. Add the Conley Express bull to the powerful Rose 1019 and you have a perfect blend of power with look and elegance!

The 1323 female carries about as royal as a pedigree as we can make on the Angus side with the female maker Density 4336 on top of Rose 1019. You will have to travel many miles to find a female with the sheer mass and volume that 1019 carries while still remaining sharp and pretty about her front end and getting out and traveling like a yearling heifer. Gorgeous udders and sound production years will be a huge factor in lot 48's future, both for herself and her progeny!

A Firebrand female here mated on top of 1019 herself is very special as you get the double shot of the great Rose 918 wrapped into one stunning female. Rose 1313 is what you would expect in a 1019 progeny to look like in terms of her sweeping rib shape, robust hip structure, all the while setting up to lay down a gorgeous udder. Her resulting calf either a One Nation or an Aquifer will for sure poise a quick ROI.

Sired by the Confidential bull who was a past Denver division Champion, mated to our Beauty 907G donor. We think the upside to the pedigree here in Beauty 1307 could be very big. We can't say enough about our Renovation daughters and think Confidential will compliment all he has done for us very well. The resulting calf here no matter which bull it is by will for sure set you up to succeed.
